**REC reference number 10/H0206/32**

Dear Mr Ashby,

Thank you for your letter dated the 8<sup>th</sup> of September. I am delighted to have received a favourable opinion for this study.

I have enclosed the revised information sheet for parents. I have corrected the typo at the third point in part 1 and I have also reviewed and changed, where appropriate, "You" and "Your child" to "you and your child". This PIS now becomes version 7.

I have also reviewed the teenager information PIS and I have highlighted the section which had the PALS details as with the adult version. This therefore remains the same version number (version 6).

Your letter approved a list of documents which includes some of the old version numbers. Some of these documents have been improved because of the advice given by the Ethics committee. I have attached a list of all the final documents with their correct final versions.

I would be grateful if you could clarify which version numbers the LREC has approved.

Yours

Esther Crawley

Senior Clinical Lecturer, Centre for Child and Adolescent Health, University of Bristol

## List of final documents and correct version numbers

Document type	Title	Version	Date
Participant information sheet	SMILE Teenager Patient Information Sheet	6	20 August 2010
